

10 *ESSENTIALS FOR* Veterinary Marketing

Marketing for a multi-location veterinary practice is complex.

From growing the brand to generating leads while keeping every clinic on the same page, you've got a lot on your plate.

When you're trying to manage SEO, ad campaigns, social media, and creative while seeing results, it can get overwhelming fast. That's why we've created this guide based on what we've learned working with veterinary groups across the country.

These 10 essentials are the foundation of a strong, scalable marketing strategy for veterinary practices. Whether you're trying to drive appointments, boost visibility, or unify your brand, it all starts here.

Let's get into it.

STRATEGY

Start with a Game Plan

No more throwing ideas at the wall and hoping something sticks.

We build custom marketing strategies based on your goals, whether that's increasing dental visits, promoting new services, or growing a brand-new location.

We take the time to understand your audience, assess your current footprint, and align every marketing effort with the metrics that matter most to your practice.

SEO

Help Pet Owners Find You Fast

Google is the new word of mouth.

When a pet owner searches "vet near me" or "emergency animal care," you need to show up at the top of the search results. We optimize your website, blog content, and Google Business Profile so you're discoverable in local search, building trust before they ever step into your clinic. Our SEO services are tailored to veterinary-specific keywords and search behavior.

WEBSITE DESIGN & MAINTENANCE

Your Digital Front Door

Your website should be more than just functional—it should feel like your clinic. We design and maintain veterinary websites that are:

- Structured smartly — So users find what they need fast.
- Built to convert — Clear calls to action and intuitive booking processes turn visits into appointments.
- Comforting and clean — Calm color palettes, smiling staff photos, and language that instills trust. Plus, we make sure it stays fast, secure, and up to date, so you don't have to lift a finger (or paw).

GOOGLE ADVERTISING

Reach Pet Owners When They Need You Most

Google Ads puts your services front and center when people are actively searching for them.

Need more dental bookings? Want to promote your new ultrasound equipment? We can target your ads by location, service, and even time of day. We manage the whole process, from keyword research to budget optimization, so you get more results, not just more clicks.

META ADVERTISING

Get Scrolling Clients to Stop & Book

Facebook and Instagram are where pet parents go to show off their pets—and discover new brands.

We create thumb-stopping, pet-loving content that educates and inspires action. Whether it's a seasonal promo, new staff announcement, or just a heartwarming video of your vet with a golden retriever, we use paid campaigns to drive real engagement and real appointments.

TRADE SHOW MARKETING

Make Your Booth the One They Remember

From regional vet expos to community pet fairs, we help you stand out IRL.

We design banners, table setups, brochures, and handouts that look as professional and inviting as your clinic. We'll help you communicate your services clearly and memorably, while staying on brand, no matter how hectic the expo floor gets.

PHOTO & VIDEO

Visual Storytelling That Builds Trust

People don't just choose a clinic—they choose the people inside it.

We help you capture high-quality, emotionally resonant photo and video content of your team, your space, and your work. Think client testimonial reels, behind-the-scenes footage, staff spotlights, and heartwarming patient stories. These assets can be used across your website, social, and email campaigns for months.

EMAIL MARKETING

Stay Top of Mind Between Visits

From check-up reminders to wellness tips, email is still one of the most powerful tools in your marketing kit.

We build custom email flows to educate, remind, and engage your client base. We make sure it's not just noise—our copy is clear, kind, and never spammy. Whether it's a seasonal promo or a birthday greeting for their dog, we help you stay connected and personal.

PRINT MATERIALS

Posters, Flyers & Brochures

Waiting room materials don't have to be boring or outdated.

We design print collateral that educates clients about your services, drives interest in promotions, and reflects your clinic's professionalism. Need new flyers for your wellness plans? A poster campaign for flea season?

We've got you covered.

STYLIZED PRESENTATIONS

Look Sharp When It Counts

Whether you're pitching new partnerships, training staff, or rolling out a new service across locations, our branded presentation decks make your message shine.

From internal slides to client-facing proposals, we create designs that are polished, clear, and totally on-brand. Your work deserves to be presented like the pro you are.

Your Patients Deserve the Best. And So Do You.

Whether you're overwhelmed by all the options or just need a partner to execute your vision, KARMA jack is here to make it easier. We specialize in working with multi-location veterinary groups, so we understand the nuances, the growth pains, and the need for consistency across locations.

You've built a practice that helps people care for their pets—we help people find and trust you. Let's talk about how we can make your brand's marketing actually work.
